# NOTES TO FINANCIAL HIGHLIGHTS

**General** The financial statements of ASKA Levenverzekering N.V. are prepared in accordance with book 2 of Civil Code and based on the firm pronouncements in the Dutch Accounting Standards, as published by the Dutch Accounting Standards Board ("Raad voor de Jaarverslaggeving"). Assets and liabilities are generally valued at historical cost or at fair value at the time of acquisition. If no specific valuation principle has been stated, valuation is at historical cost. The Supervisory Board of the Company has approved these Financial Statements on 24 June 2022.

Financial assets Investments at amortized cost are non-derivative financial assets with fixed or determinable payments and fixed maturities for which the company's management has a positive intention and ability to hold to maturity. Fixed income securities are valued at face value. Real estate is valued at fair value.

Receivables Receivables from brokers are valued at face value less a provision for non-collectability.

Tangible and Intangible Fixed Assets Fixed and intangible assets are stated at historical cost less depreciation/amortization. Historical cost includes expenditures that are directly attributable to the acquisition of items. Depreciation/amortization is calculated on a straight-line basis over the use of the assets.

Equity The share capital is carried out at nominal value. Paid in surplus reflects the proceeds received in excess of the par value. There are subordinated loans committed by shareholders.

**Technical provision** The reinsured provision for life policy liabilities is principally calculated according to the net reserve method using mortality tables and interest rates customary in the industry, almost without exception in the range of 3-4%.

**Reinsurance** The reinsurances' shares in insurance reserves and outstanding claims are presented in the balance, net of an allowance for doubtful or bad debts, based on management's estimate.

In order to reduce the insurance risks, the company utilizes a reinsurance program. The majority of reinsurance business ceded is placed on a quota share/excess of loss basis with retention limits varying by product line. Amounts recoverable from reinsurers are estimated in a manner consistent with the assumptions used for ascertaining the underlying policy benefits and are presented in the balance sheet as reinsurance assets. Reinsurance is placed with high rated counterparties and concentration of risk is avoided by following policy guidelines in respect of counterparties' limits that are set each year and are subject to regular reviews. Each year-end, management performs assessment of creditworthiness of reinsurers to update reinsurance purchase strategy and ascertaining suitable allowance for impairment of reinsurance assets.

ASKA Levenverzekering N.V. has entered into a quota share agreement with Mapfre RE. The contract defines the policies included in the contract, consisting of all products, and a quota share of 60% of these policies has been ceded to the reinsurer with regard to premiums, claims, technical provision and the commission on the result of the ceded policies.

**Contingent liabilities** In the normal course of business, the Company enters into commitments at balance sheet date for which no provision has been made in these annual statements. As of December 31, 2021, there were no commitments.

Gross premium Premiums are recognized as revenue proportionally over the covered period.

Net benefits incurred (claims) Consists of paid claims and the change in the provision during the year.

Taxes ASKA Holding N.V. and its subsidiaries are subject to Curaçao income tax law. ASKA Holding N.V. forms a fiscal unity with its subsidiaries. In accordance with the standard conditions, a company and its subsidiaries that form part of the fiscal unity are jointly and severally liable for taxation payable by the fiscal unity.

Subsequent events affecting the stated earnings of the company The COVID-19 pandemic has negatively impacted the global economy. To which extent the pandemic impacts our business, results of operation, and financial condition, as well as our regulatory requirements, will depend on future developments, which are highly uncertain and cannot be predicted at the moment.

At this time, the Company has the ability to meet its current and future obligations and does not expect a scenario that would impair the Company's ability to operate as a going concern.
